This Warranty shall be valid and apply to Seller products only if the products are erected and installed strictly in accordance with Seller's engineering plans and specifications; all applicable erection standards and procedures regularly published by the Metal Building Seller's Association; and current erection manuals or other instructions regularly issued by Seller. Any modification, deviation or variation from any of the foregoing without the prior written consent of an officer Seller will void this Warranty.
2. This Warranty is applicable only to product damage or failure caused by "normal atmospheric exposure," which shall not be construed to include the following conditions:
 - a. Damage or deterioration caused by marine (saltwater) atmospheres, or by constant exposure to either salt or fresh water. As used herein, the term "constant exposure" to water includes without limitation conditions such as standing water caused by inadequate roof drainage or condensation caused by inadequate vapor barrier installed in the building.
